Frontend Technologies: React js, Redux, Bootstrap, Material-UI

Backend Technologies: Node.js, Express.js, REST APIs

Database Technologies: MongoDB

Tools: Git

INTERNSHIP

App Innovation Technologies

Jan - Apr 2025

Contributed to frontend and backend development for the PowerConnect AI project during my internship at App Innovation Technologies, gaining hands-on experience and enhancing my development skills.

PROJECTS

Project 1: Task Management Web App

A responsive web application to create, update, and manage daily tasks with due dates and status tracking. Includes features like task filters and user-friendly UI using React.js.

Project 2: E-Commerce Website for Oil Store

Built a full-stack e-commerce website for an oil store with product listing, filters, cart, and responsive design using React.js, Node.js, Express, and MongoDB.

CERTIFICATION

Full Stack Development with React.js

Kitkat Software Technologies | Jan 2024 - May 2024

Completed training in MERN stack and built a boutique e-commerce site with full-stack features like authentication, routing, and responsive design.
